

## CARE & MAINTENANCE

Commercial chemicals and disinfectants are recommended for use on the Equi-Turf™ surface.

The following disinfectants are acceptable however must be diluted:

*Rescue*  
*Bleach*  
*Tek-Trol*  
*Virkon*  
*Chlorihexadine*  
*Povidone Iodine*

Please contact Equi-Turf for acceptable ratios.

Although it is not required, power washing will improve the aesthetic appearance of the surface.

For stain removal, use a commercial cleaner mixed with warm water as instructed on the packaging. If stain remains, a more aggressive treatment may be necessary. Call for direction – 989-274-2743.

Use extreme caution to avoid gouging when snow plowing with steel blades.
